The overriding theme of Group Work: Processes and Applications is a focus on the specialized group work that counselors perform from a systemic perspective in a multicultural context.

Group Work | Processes and Applications, 2nd Edition

The overriding theme of Group Work: Processes and Applications is a focus on the specialized group work that counselors perform from a systemic perspective in a multicultural context. This text briefly covers traditional theoretical approaches, focusing more on the techniques and applications of the approaches, but the core of the text involves the systemic approach to group work: preparing group leaders to facilitate the systemic group process, from planning the group through the four ...

Description. Group Work offers a comprehensive introduction on how to lead task, psychoeducational, counseling, and psychotherapy groups from a systemic, theoretically integrative perspective. Giving significant attention to pro-developmental leader and member roles, multicultural applications, outcome research, and accountability in group work, this text goes far beyond the traditional focus ...

Erford, Group Work: Processes and Applications | Pearson

The effective preparation of group leaders has become increasingly more important in recent years due to managed care and educational reform movements, and Group Counseling in the School and Clinic emphasizes the systemic approach to group work; that is, preparing group leaders to facilitate the systemic group process, from planning the group through the four stages of group work: forming and orienting, transition,

working, and termination. Showing students how to master the ...
