Born in 1816, Hezekiah Bradley Smith began manufacturing woodworking machinery, under the H. B. Smith banner, in the 1840s. He received his first woodworking machinery patent in 1849: a mortiser for making window blinds. His location at that time was Manchester, NH, so it is possible that his manufacturing operations were there, although we have no direct evidence of that. In any event, he moved to the Boston area shortly after receiving his patent, setting up a factory in Lowell.
